## EDUCATION

---

### Graphic Era Deemed University

*B.Tech in Computer Science and Engineering | CGPA : 8.9/10*

Dehradun, India

*June 2019 – June 2023*

### St, John's School

*Class XII | Percentage : 81%*

Ghazipur, Uttar Pradesh

*May 2017 – May 2018*

## TECHNICAL SKILLS

---

**Core :** Data Structure, Algorithms, OOPS, Database Management System, Software Engineering

**Languages :** C, C++, SQL, HTML, CSS, Java, Javascript, Typescript

**Frameworks/Libraries :** Angular, Spring Boot, Material UI, Bootstrap, Hibernate, Node.js, React.js

**Developer tools :** Git, Eclipse, Visual Studio Code, IntelliJ IDEA

## EXPERIENCE

---

### Accolite Digital

February 2023 – June 2023

*Software Engineering Intern | [Certificate](#)*

*Gurugram, India*

- Developed front-end and back-end components using Angular, React and Spring Boot for different projects, contributing to the full software development lifecycle.
- Utilized and implemented Angular framework to create responsive and user-friendly interfaces. Designed, implemented and tested RESTful APIs using Spring Boot.
- Managed data storage efficiently using SQL and conducted comprehensive API testing with Postman at Accolite Digital, ensuring project robustness and functionality.
- Actively engaged in Scrum meetings and end-of-week reviews, adeptly adapting to changing project requirements by refining deliverables and contributing to a culture of continuous improvement.

## PROJECTS

---

### Accolite Shopify | *Angular, Spring Boot, TypeScript, SQL, HTML, CSS* | [Link](#)

May 2023 – June 2023

- Developed an user-friendly shopping website using different tech stack, implementing key functionalities such as Add to Cart, Delete All Items, Delete Item, and Add Address and Phone.
- Leveraged the power of Spring Boot to construct a reliable back-end system responsible for managing shopping cart operations and user data.
- The database used for storing and retrieving information is MySQL. Postman was exclusively utilized for testing the API in the shopping website project.

### Alert Messenger and Widget Manager | *Angular, Spring Boot, SQL, Typescript* | [Link](#)

March 2023 – June 2023

- Integrated the frontend with two backends, one for the widget manager and another for the alert messenger.
- This project will serve as an integral component within another significant project.
- Developed an Alert Messenger and Widget Manager system to enable real-time alert notifications for users and manage widget data storage.
- Exception handling and API testing were implemented. Postman was used for testing the APIs, and MySQL was utilized as the database management system.

## ACHIEVEMENTS

---

### LeetCode | [LeetCode](#)

- Solved over 700+ problems
- Accumulated an impressive collection of 17+ badges

### AccioWars- Coding Competition | [Certificate](#)

July 2022

- Achieved a strong ranking of 128th out of 11,000+ participants in the highly competitive Acciowars coding competition.
